## 1.Screenshots of webpage:

### Home Page - index.html
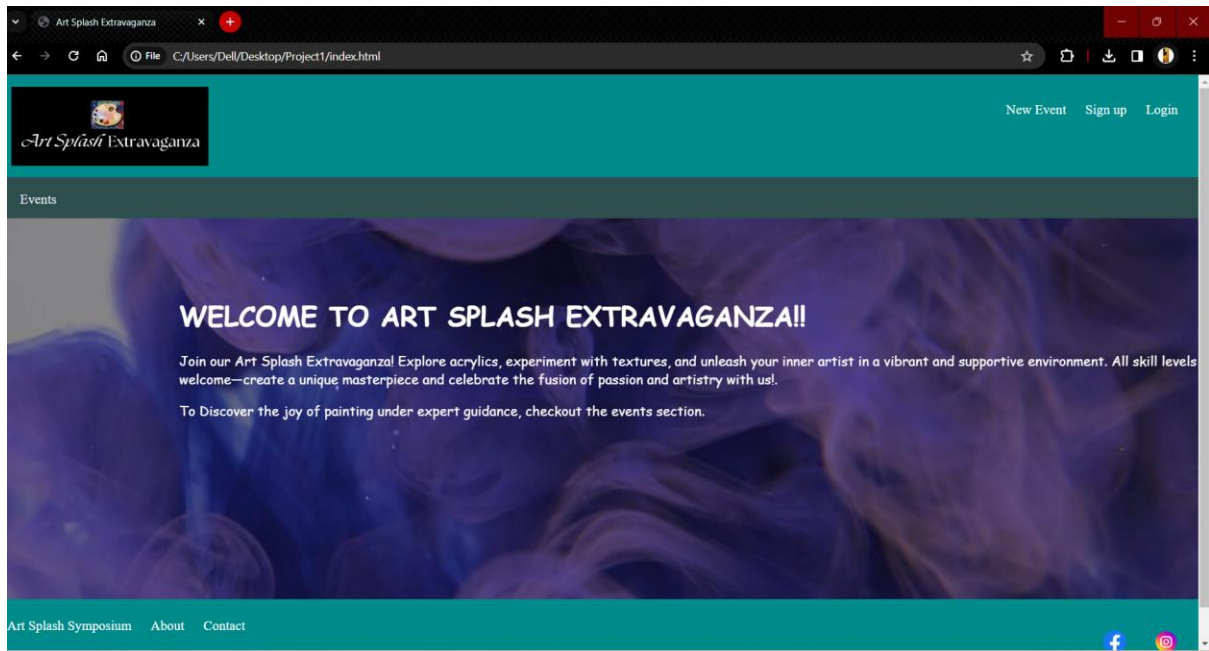

Events Page – events.html
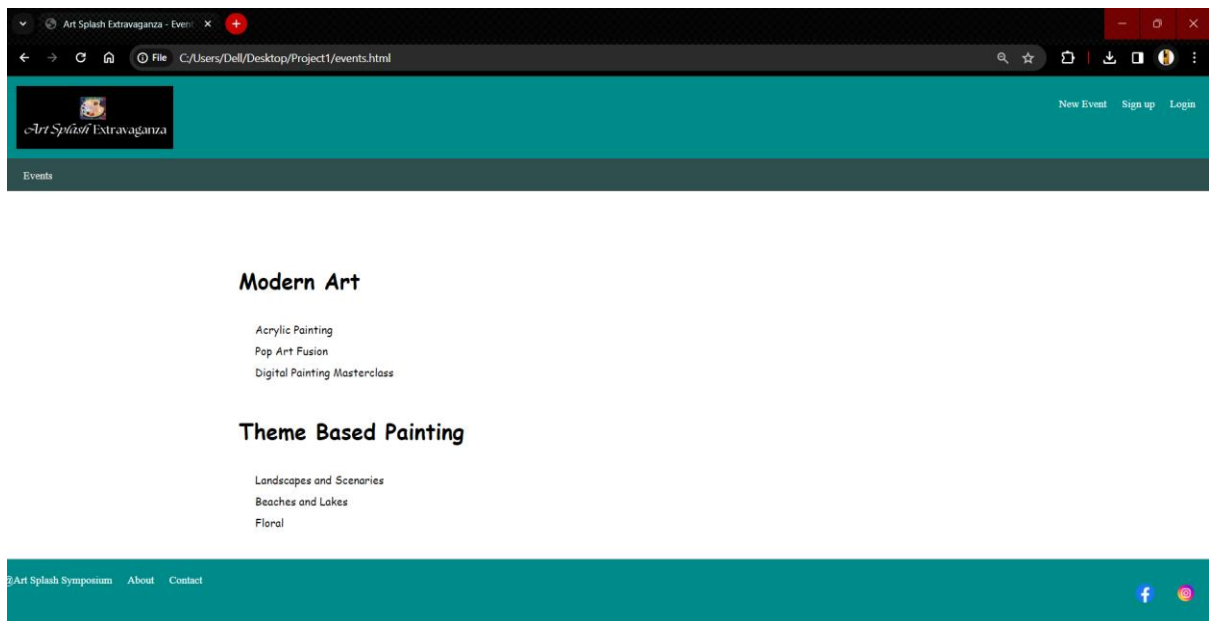

Event Detail Page – event.html

New Event Page – newEvent.html

2. Explanation of additional features, if any.

Did not add any additional features. The Website has been designed as per the instructions.

3. Explanation of status, stopping point, and issues if incomplete.

The webpage is completely developed as per requirements. There was no stopping point nor facing any issues at any stage.

4. Discuss the easy and challenging parts of the assignment. How did you overcome all or some of the challenges?

Completing the tasks was straightforward, yet the sole challenge arose during the alignment of elements. To overcome this hurdle, I experimented with various CSS properties and sought potential solutions online, ultimately achieving the desired alignment by the project's conclusion.
